

# **SONNE ELECTRONIC AND TECHNOLOGY**

COMPANY PROFILE

RF SOLUTIONS

**2023**

# ABOUT THE COMPANY

Established in 2015, SONNE is a comprehensive enterprise specializing in RF product design, manufacturing, and production. With R&D and advanced processing facilities, we ensure a seamless process from raw materials to finished products. Our expertise includes mold development, allowing flexibility in creating various new products.

In the RF passive devices sector, we utilize diverse models of analyzers for research and design, offering a range of products including **connectors, cables, cable assemblies, power dividers, filters, directional couplers, loads, and attenuators.**

Customer-centric and innovation-driven, SONNE leverages industry experience and technology for rapid development in the communication field.

□ Direct Replacement for Lead-Acid

The casing is consistent with lead-acid batteries, making installation simple and reliable.

□ Compared to Traditional Lead-Acid Batteries

- 200% Power Output
- 1/2 the Weight
- 5X Fast Charge Technology
- 4X Cycle Life
- Easy installation and connection, supporting up to 48V in series
- Maintenance-free for a lifetime
- Integrated Bluetooth functionality
- Downloadable Android/iOS APP for real-time battery monitoring
- Battery capacities range from 8AH to 240AH.

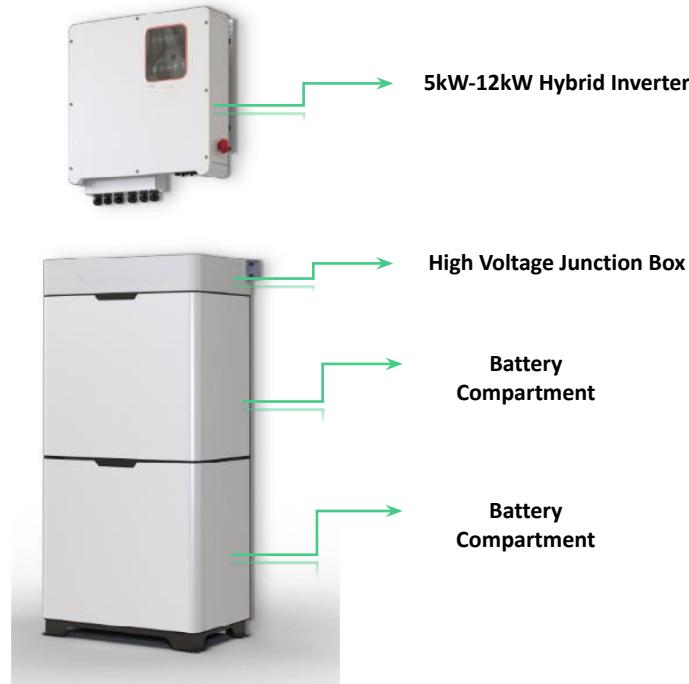

□ Flexible Grouping

Can be connected in series to form 24V, 36V, 48V battery groups;  
Supports a maximum of 4s2p up to 48V 400Ah.

□ Wide Range of Applications

Suitable for home energy storage, RVs, marine power supply, video surveillance, solar street lights, light electric vehicles, golf carts, parking air conditioners, truck AC power, and other applications.

# Home Energy Storage Battery System

## Flexible Configuration

Output power can be flexibly configured from 5KW to 12KW;  
Flexible battery voltage configuration with a wide range of DC voltage;  
Flexible energy storage capacity expansion, supporting a maximum of 4 clusters in parallel;  
Battery modules are 3U in height and can be directly installed on 19-inch racks;  
Small volume, light weight, and high energy density of the battery modules.

## Safe and Reliable

The system has anti-backflow functionality;  
The system has a comprehensive anti-reverse connection design;  
Long lifespan, high cycle count, designed for a 10-year lifespan;  
Three-tier battery management architecture with multiple battery protection designs.

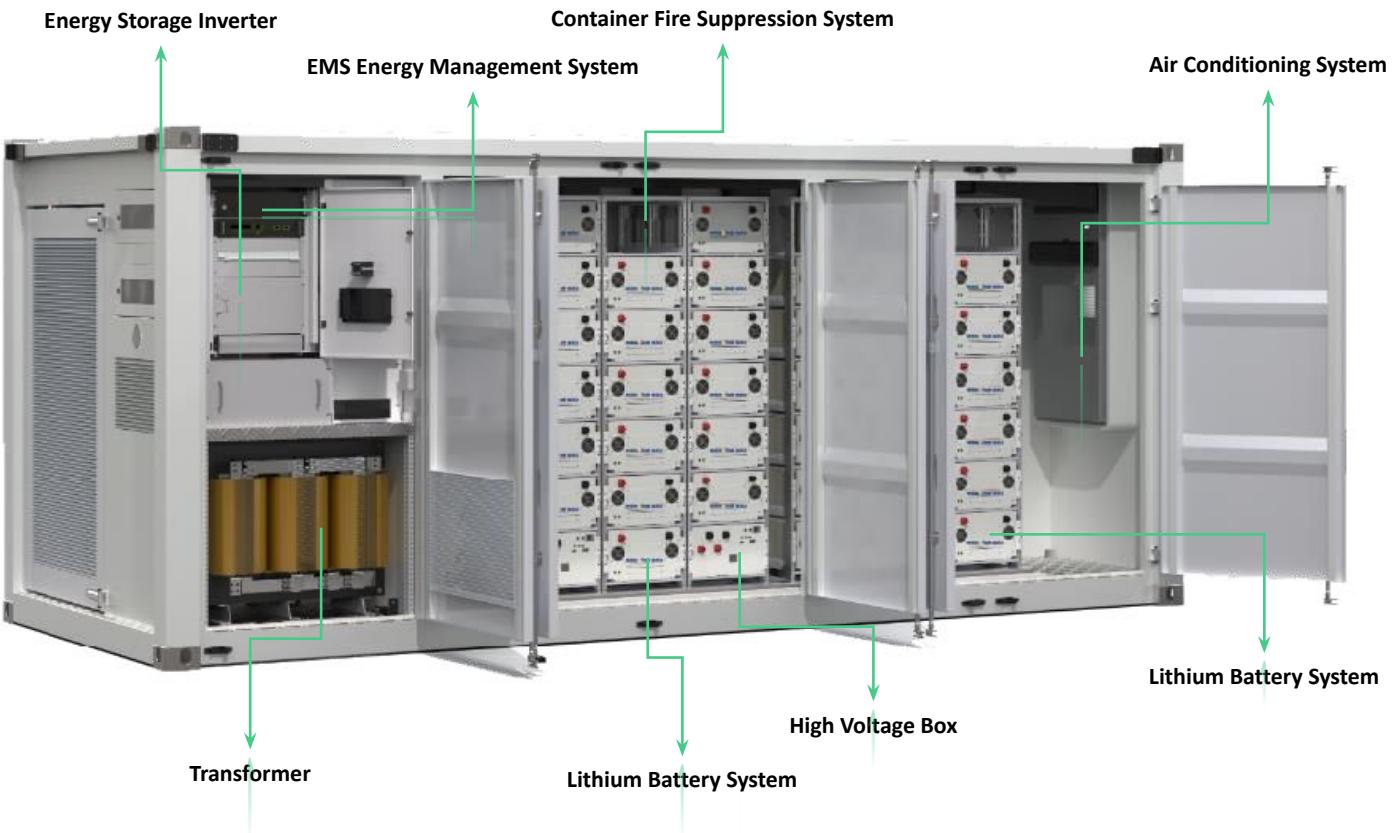

## Local and Remote Monitoring

Equipped with real-time monitoring LCD screen (optional);  
Capable of both local and remote monitoring.

## Intelligent & Advanced

Home smart energy management;  
Active power dispatching and demand response;  
Distributed virtual power plant management.

# Industrial and Commercial Energy Storage Systems

## Flexible Configuration

- Output power can be flexibly configured from 100kW to 1000kW;
- Standard battery cluster design, with a capacity of 157kWh per cluster;
- Supports 10-foot, 20-foot, and 40-foot container configurations;
- Supports energy storage capacity from 300kwh to 2.6Mwh.

## Safe and Reliable

- Comprehensive container temperature control management;
- Sophisticated fire prevention system;
- External maintenance methods ensure personnel safety;
- Comprehensive fault diagnostics (over 150 fault diagnostics);
- BMS graded design to improve energy storage safety operation level.

## Local and Remote Monitoring

- Equipped with real-time monitoring LCD screen (optional);
- Capable of both local and remote monitoring;
- Remote scheduling of energy storage operations;
- Intelligent operational data management.

## Intelligent & Advanced

- Smart energy management;
- Active power dispatching and demand response;
- Comprehensive energy dispatching capabilities.

# Home Energy Storage Battery System Products

Forming a Home Energy Storage System with External Hybrid Inverters

Energy Storage System Energy Range: 4.8kWh-20.4kWh  
Supports a maximum of 4 cabinets in parallel  
Cycle Life exceeds 8000 cycles

## Product Forms:

Rack-Mounted Home Energy Storage Battery  
Wall-Mounted Home Energy Storage Battery  
Floor-Standing Home Energy Storage Battery

## Product Voltage:

Low-Voltage Home Energy Storage Battery System  
High-Voltage Home Energy Storage Battery System

## System Configuration:

Split-type Home Energy Storage System  
Integrated Home Energy Storage System

Villa

Base Station

Home

Island Cottage

Ranch

Farmhouse

# Industrial and Commercial Energy Storage Systems

50kW Photovoltaic Energy Storage Integrated System

100kWh Industrial and Commercial Energy Storage System

## □ Flexible Configuration

- Output power can be flexibly configured from 50KW to 500KW;
- Battery standard system cabinet design, with a capacity of 50KWH per cabinet;
- Flexible energy storage capacity expansion, supporting a maximum of 20 clusters, with a maximum capacity of 1MWH.

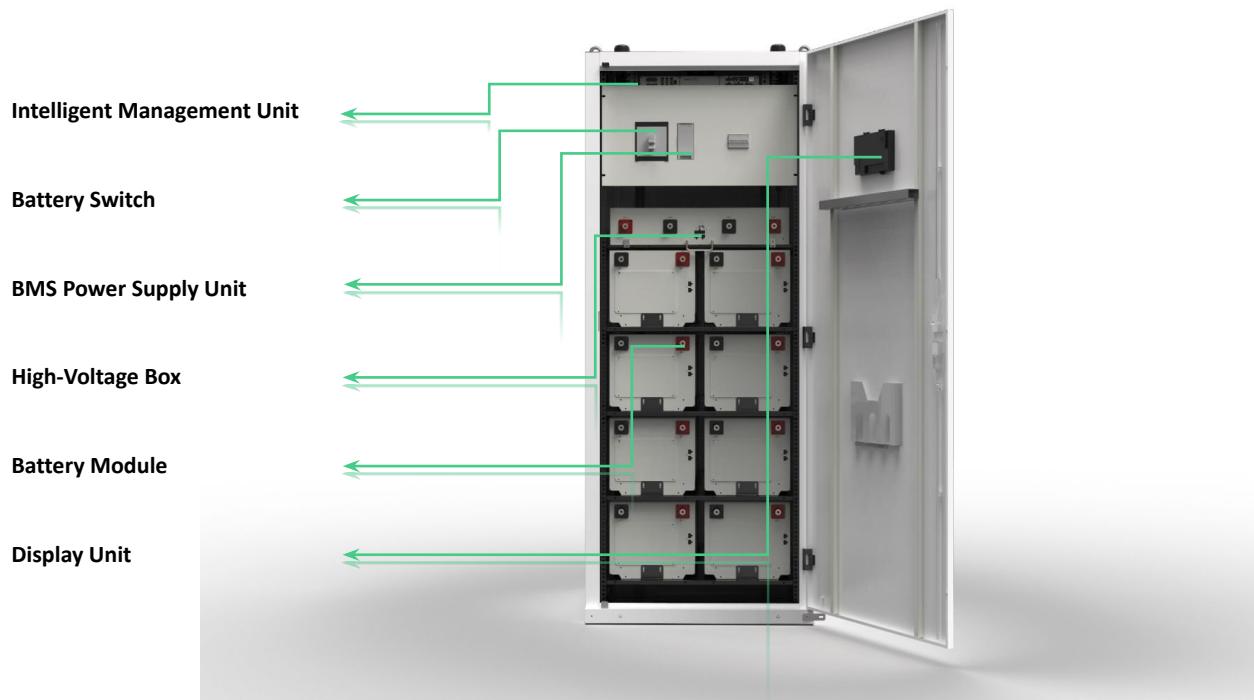

## □ Safe and Reliable

- The system has anti-backflow functionality;
- The system has a comprehensive anti-reverse connection design;
- Long lifespan, high cycle count.

## □ Intelligent & Advanced

- Wide battery voltage range;
- Grid-connected charging and discharging, off-grid independent inverter function;
- Reactive power and active power can be adjusted;
- Off-grid cold start function, supports multi-machine parallel function;
- Small size, easy installation, transportation, and maintenance;
- Highest power density, with the highest efficiency reaching 98.7%;
- Low power consumption fan, with an intelligent temperature control system;
- Patented software control detection algorithm ensures timely detection of equipment failures;
- Comprehensive overview of equipment operating status.

# Data Center Solutions

## □ Flexible Configuration

- Flexible configuration of output voltage from 384V to 512V;
- Supports both 2-wire and 3-wire UPS battery configurations;
- Supports parallel connection of up to 20 cabinets;
- Capacity range from 50KWH to 1MWH.

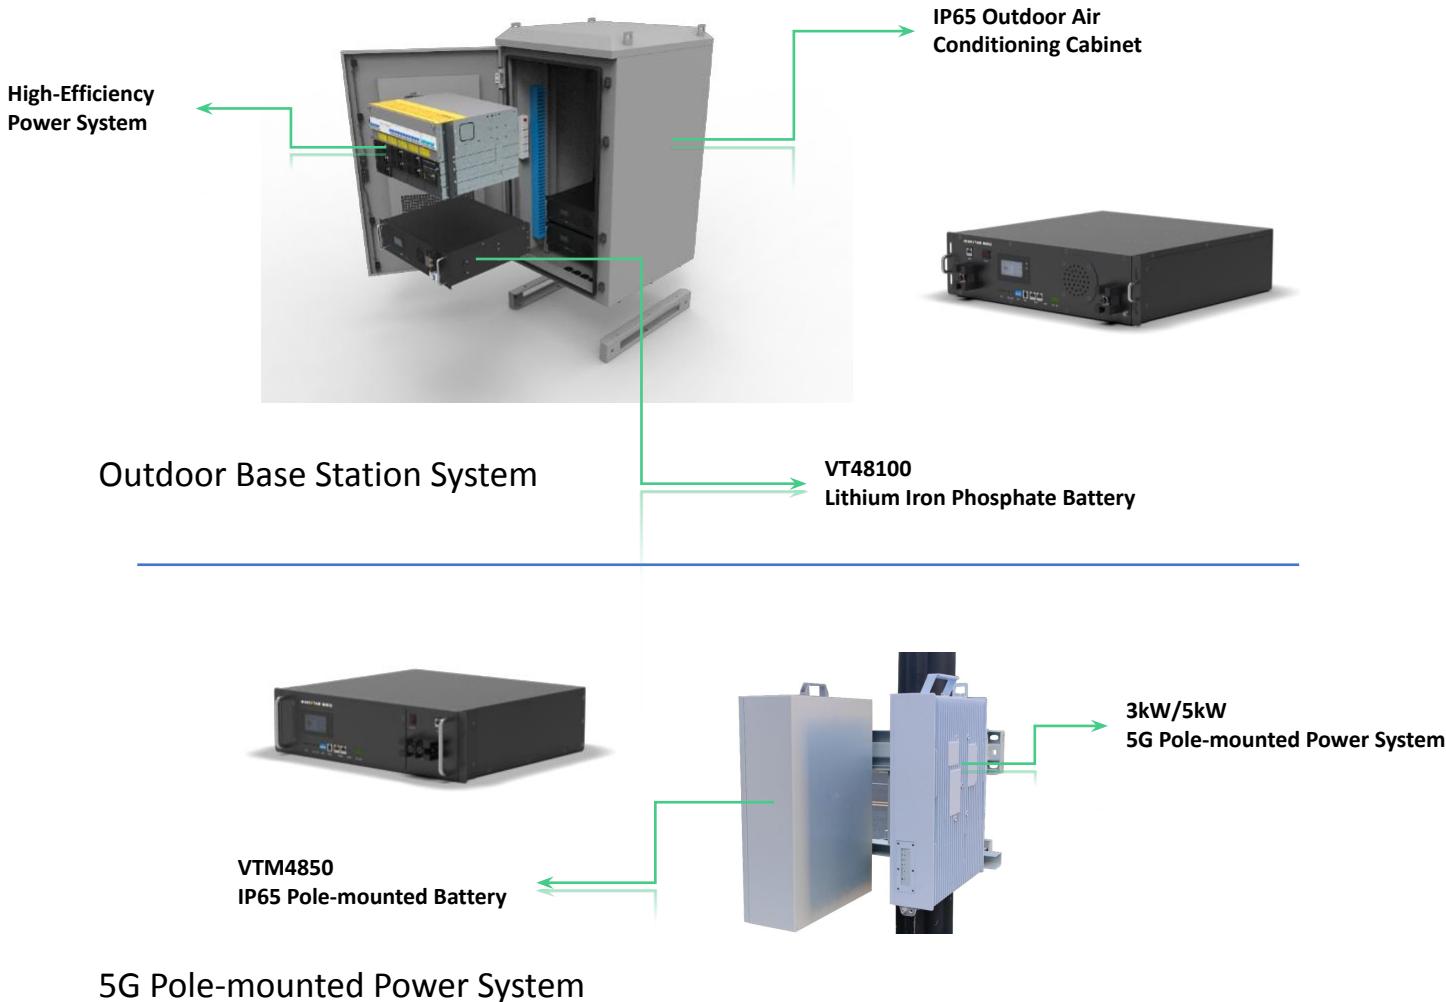

## □ Safe and Reliable

- Comprehensive insulation, high-voltage, temperature control, fault, and operation system diagnostics;
- Accurate SOX detection;
- Precise overcurrent, short circuit, reverse connection, overtemperature, and gas detection protection;
- Temperature, voltage, and internal resistance detection covering all battery cells;
- Comprehensive fault diagnostics (over 150 fault diagnostics);
- Graded fault diagnostics design to improve energy storage safety operation level;
- Can operate safely independently without communication with the UPS host;
- Up to 4000 cycles of cycle life.

## □ Local and Remote Monitoring

- Equipped with real-time monitoring LCD screen (optional);
- Capable of both local and remote monitoring.

# 4G/5G Communication Backup System

## Safe and Reliable

- Safe lithium iron phosphate cathode materials;
- Multiple protection mechanisms based on independently developed and patented BMS;
- Automated production line ensuring high consistency.

## Modular Design

- Modular design for direct installation on 19" & 23" racks;
- IP65 design (5G products).

## Long Life

- 15 years of designed lifespan.

## Intelligent Lithium Battery System

- Equipped with an LCD screen for real-time monitoring;
- Capable of local and remote monitoring;
- Intelligent anti-theft system: GPS, etc.

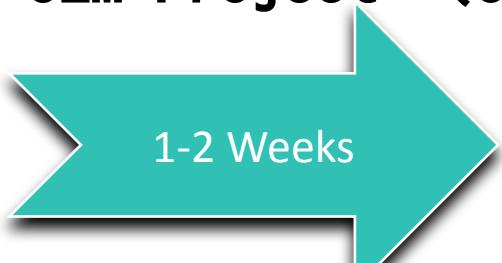

## Application Scenarios

- 19" & 23" communication base stations;
- 5G micro stations (pole-mounted and wall-mounted).

# Project Management: Local Inventory in Southern California) ODM Project (4-10 Weeks)

## OEM Project (3-6 Weeks)

# Containerized Energy Storage Solutions Product

**Small Standard Shipping Container Cabin**

**10ft Energy Storage Container**

Built-in air conditioning for heat dissipation  
Maximum battery cluster capacity: 157.4kWh  
PCS rated power: 250kW-300kW  
Maximum battery capacity: 314.8kWh-472.2kWh

**Medium Standard Shipping Container Cabin**

**20ft Energy Storage Container**

Built-in air conditioning for heat dissipation  
Maximum battery cluster capacity: 157.4kWh  
PCS rated power: 0.5MW-1MW  
Maximum battery capacity: 1MWh-1.416MWh

**Large Standard Shipping Container Cabin**

**40ft Energy Storage Container**

Built-in air conditioning for heat dissipation  
Maximum battery cluster capacity: 157.4kWh  
PCS rated power: 0.5MW-1MW  
Maximum battery capacity: 2.676MWh-3.148MWh

# MANUFACTURING FLOOR

15 acre campus  
headcounts: 200

# MANUFACTURE PROCESS

## Mechanical Processing

Precision mechanical processing ensures accurate shaping of components.

## Electroplating

Electroplating enhances component durability through a meticulous coating process.

## Assembly

Seamless assembly integrates components into the final product.

## Testing

Comprehensive testing guarantees the product meets quality standards.

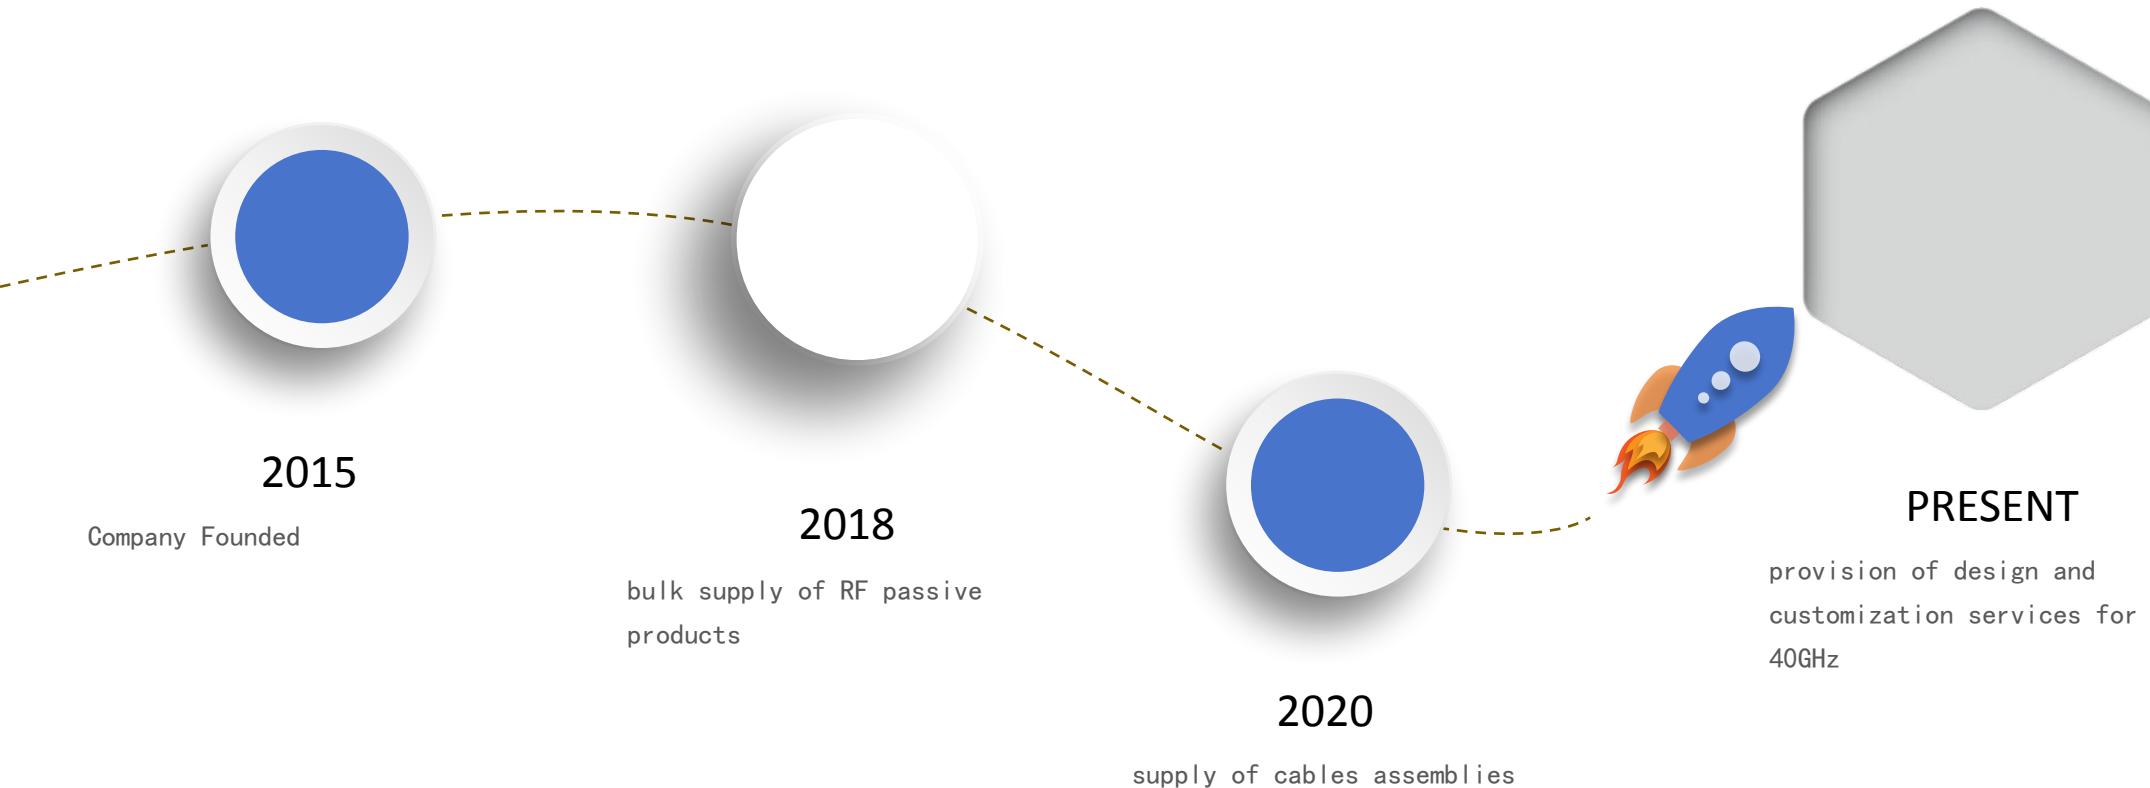

## Packaging

Careful packaging ensures safe and secure delivery to clients.

Part Number	Connector Interface	Frequency Range	Coupling	Avg Power
T-DC-06-0738-NF	N female	698-3800MHz	6dB	200W
T-DC-07-0738-NF	N female	698-3800MHz	7dB	200W
T-DC-10-0738-NF	N female	698-3800MHz	10dB	200W
T-DC-15-0738-NF	N female	698-3800MHz	15dB	200W
T-DC-20-0738-NF	N female	698-3800MHz	20dB	200W
T-DC-30-0738-NF	N female	698-3800MHz	30dB	200W

# Tapper

Part Number	Connector Interface	Frequency Range	Coupling	Avg Power
T-TP-06-0460-MF	4.3-10 female	380-6000MHz	6dB	200W
T-TP-10-0460-MF	4.3-10 female	380-6000MHz	10dB	200W
T-TP-15-0460-MF	4.3-10 female	380-6000MHz	15dB	200W
T-TP-20-0460-MF	4.3-10 female	380-6000MHz	20dB	200W
T-TP-30-0460-MF	4.3-10 female	380-6000MHz	30dB	200W

# Hybrid Combiner

Part Number	Connector Interface	Frequency Range	No of Ports In/Out	Avg Power
T-HC-22-0738-NF	N Female	698-3800MHz	2/2	200W
T-HC-33-0738-NF	N Female	698-3800MHz	3/3	200W
T-HC-44-0738-NF	N Female	698-3800MHz	4/4	200W
T-HC-33-0438-MF	4.3-10 female	340-3800MHz	3/3	300W
T-HC-44-0438-MF	4.3-10 female	340-3800MHz	4/4	300W
